Information Security Specialist II

E3R Opportunity, San Diego, CA; Information Security Specialist II:

Job Description: E3R is seeking candidates to fill an Information Security Specialist II opening. The position is described below.

Position Summary: The Information Security Specialist II is a critical role responsible for supporting all aspects of a Program Information Assurance (IA) process. This includes ensuring compliance with Cyber Security, Engineering, Test & Evaluation (T&E), and Security Control Assessor (SCA) functions within a Certification & Accreditation (C&A) or Assessment & Authorization (A&A) framework. The specialist will leverage their expertise in the Risk Management Framework (RMF) process, with prior experience in the Defense Information Assurance & Certification Accreditation Process (DIACAP) being highly desirable. The role requires a hands-on approach to evaluating security solutions, maintaining operational security, and preparing documentation to support Authority to Operate (ATO) requirements.

Position Duties:
- **Support IA Processes**: Assist in the execution of Information Assurance (IA) processes, including the preparation and maintenance of security artifacts and traceability documents.
- **Risk Management Framework (RMF)**: Apply knowledge of RMF to support compliance and authorization processes, ensuring the security of information systems.
- **Security Policies & Guidance**: Familiarize and adhere to relevant security policies and guidance documents to maintain the security posture of systems handling up to classified information.
- **Security Solutions Evaluation**: Evaluate and recommend security solutions to ensure they meet the necessary security requirements.
- **Operational Security Maintenance**: Supervise and maintain the operational security posture for various information systems, ensuring ongoing compliance with security policies.
- **Development of Security Policy**: Contribute to development of system security policies, ensuring compliance with change management and configuration control processes.
- **Coordination of IT Security Programs**: Plan and coordinate IT security programs and policies in alignment with command leadership's mission and goals.

Minimum Qualifications:
- High school diploma or HS equivalency is acceptable with additional years of experience*.
- 2-5* years of practical experience in cybersecurity, engineering, Security Test and Evaluation (T&E), or Assessment and Authorization (A&A) (formerly C&A) is required.
- Experience with Information Assurance tools such as DISA Enterprise Mission Assurance Support Service (eMASS), Assured Compliance Assessment Solution (ACAS) is preferred.
- Ability to hold an Interim Security Control Assessor (SCA) qualification.

Security Clearance Requirement: SECRET Security Clearance

Place of Performance: San Diego, CA

Salary Range: $115,000 - $155,000

Benefits: E3R has a comprehensive benefits plan which includes HMO/PPO Medical Plan Options, Employer Sponsored Health Reimbursement Arrangement, 401(k), Dental and Vision Plans, company paid Life Insurance, Voluntary Life and AD&D, Pet Insurance, Employee Assistance Program as well as Paid Time Off, Sick Leave and Paid Holidays.

Company Description: Exceptional Employees for Exceptional Results (E3R) was founded June 6th, 2011 as a Service Disabled Veteran Owned Small Business. Our company name reflects our business model. Corporate management and infrastructure do not provide direct support to our clients. Our employees do. If we attract and retain the best employees in our industry, we will be successful. If we fail to provide a quality workforce, nothing else matters. We achieve our purpose and our business success through hiring and retaining the very best employees in our industry.
